MOTION PICTURES

The Motion Picture Service, Office of Information, U. S. Department of Agriculture, produces and distributes motion pictures on subjects with which the Department is concerned. They are both sound and silent, and are released in 16-mm. and 35-mm. widths. Films in the 16-mm. size are available from State film libraries; 35-mm. films are available only from Motion Picture Service. They are lent to responsible agencies and persons or may be purchased outright. Prints of Department films may be obtained from 73 cooperating film libraries in the 48 States, and the Territories of Alaska, Hawaii, and Puerto Rico.

THE TELEPHONE AND THE FARMER. 3 reels, 16 mm., sound, color. Running time, 30 minutes. Released 1951.

This motion picture tells vividly how the people in one community through their own efforts and with the financial assistance provided through the telephone loan program of the Rural Electrification Administration answer the question "Just what do you have to do to get a telephone out here in the country?" Filmed in color in a typical rural community, and with actual farmers composing the cast, the picture shows how better rural telephone service will benefit you, your community, and the Nation. Suitable for showing to all types of rural audiences.

(Available for loan from most Extension Service and State College film libraries and from REA Applications and Loans Division telephone fieldmen. Available for television.)
